## REPORT OF SUPERINTENDENT OF SCHOOLS TO THE CITIZENS AND TAXPAYERS OF NEW BOSTON

---

During the last summer vacation Miss Carolyn Dodge and Miss Emeline Lord who had been teaching in High School, accepted offers from Massachusetts towns, which meant "Professional Advance." To provide for their vacancies Mrs. Marion Zeller and Miss Lucy Marsters were secured. Mrs. Zeller, a graduate of Middlebury College, at Middlebury, Vt., had five years of teaching experience previous to this year. Miss Marsters, a four-year graduate of Plymouth Normal School, had one year of experience.

Plans for the year, which included the high school and grades 7 and 8 were made carefully in advance of the opening of school. The result has been that the work has gone forward from the first day without confusion.

The elementary teachers, Mrs. Nellie Chancey at No. 2 with 6 pupils—Miss Ellen Barr at No. 13 with 14 pupils—Miss Grace Leach at the Village primary with 33 pupils—and Miss Christina Darling at the Village Intermediate grades with 36 pupils, have continued this year.

Enrollment in the grades remains about as before, approximately 110. The High School with grades 7 and 8 added, total 65 at highest. At present in the Village, the "teaching load" is quite equally distributed.

### THESE "COSTS"

#### Elementary

In the Budget there are two items covering "Books" and "Supplies." The "Book's" item includes text-books—reference books—dictionaries, etc.—all

books furnished for pupils' use. For elementary pupils in New Hampshire for 1930-31, the average amount spent for books per pupil was \$1.36. New Boston spent per pupil last year 90 cents. "Supplies" includes papers of all kinds—composition books, blotters, pens, ink, paste, rulers, spelling blanks, and sometimes, work books, etc.

For the school year 1930-1931 for each elementary pupil in New Hampshire the average spent per pupil for supplies was \$1.60. In the same year New Boston spent \$1.43. Or to combine for 1930-31:

	State Aver.	New Boston
Books	\$1.36	\$ .90
Supplies	1.60	1.43
Total	<hr/> \$2.96	<hr/> \$2.33

New Boston spent 63 cents less than the average for the state for each pupil's books and supplies.

Remembering that there are 180 school days in a school year and that \$2.33 spread over 180 days allows about  $1\frac{1}{2}c$  per day per pupil for books and supplies, the question probably arises—"Has that been enough?"

The average of the salaries New Boston pays to their Normal School graduates is \$900. This is but little above the beginning wage for Normal trained teachers.

### High School Costs

In the state last year, including all public high schools the average per capita for books, \$3.67—New Boston \$2.66; average per capita for supplies, \$4.00—New Boston \$4.05. Total for books and supplies, \$7.67—New Boston total \$6.71.

New Boston spent about \$1.00 per pupil less than the State average.

## Salaries

The salary of the headmaster is for the calendar year—rather than for the ten-months' school year. The agricultural course requires that the boys carry on "projects" during each summer vacation. The planning and supervision of this work is part of the headmaster's job. He is given a two weeks' vacation—or longer if given to professional study at Approved Summer sessions of Colleges or Universities.

New Boston High School, meeting certain standards, qualifies for aid in accordance with the provisions of the "Smith-Hughes" Act. The amount received annually approximates \$650. This amount, if deducted from the headmaster's salary, would reduce it to just about the salary which would have to be paid if agricultural work were not given.

Also against the High School costs it should be remembered that there are a number of tuition students from Dunbarton and Francetown and Lyndeboro for each of whom this district receives \$98.00 per pupil. This year there are 7 tuition pupils now in High School and another over for the first quarter.

Again, under the present arrangement whereby grades 7 and 8 are entirely under the supervision and instruction of the High School teachers, an additional amount of elementary state aid is to be received. This will add about \$600 to the former amount.

These items—three of them—receipts on account of the Agricultural work—receipts from tuition—and added Elementary State Aid because High School teachers are caring for some of the elementary instruction—may well be borne in mind.

## Supervision

All towns and cities in the state are included in state-wide supervision in 60 supervisory unions. New Boston, with Bedford, Goffstown Special and Goffs-

town Town School Districts comprise Supervisory Union No. 19. Let us omit the 30 larger Unions including the larger towns and all the cities and consider the other 30 Unions of towns and areas similar to this. In this group of 30 Unions, Union 19, this one, with slightly more than 800 pupils and 35 teachers is among the highest ten. The largest number of pupils in any of these ten Unions is about 920—the largest number of teachers is 43. Of the salaries paid by these ten, the salary paid by this Union is lowest and substantially under the average for the ten.

### **Purchase of Supplies**

In practically all the Unions the Superintendent buys the “supplies” for the schools. The largest single item is for “papers.” These papers include arithmetic paper, white composition of letter size, small white composition, yellow practice, drawing paper, and composition books, etc.

There are two ways of buying. One way is to buy for each district separately—make out an order and send it to one of the several “school supply houses.” In a union like this, that would mean four district orders probably sent to four different companies.

Another way is to “bunch” orders to secure buying advantages. That is, find out the requirements of each district for various items—then combine these into one order. This makes for economy in these ways—in larger quantities the price is lower. On small orders companies do not pay freight. On orders over a certain amount they do pay freight. Price advantages too are usually secured by buying papers direct from the mills.

This second plan has been followed for years in this Union. Finding the “best place” to buy—bunching orders—ordering direct from Papers Mills with goods prepaid to whatever place desired—result in a yearly saving.

### **The Community and the School**

It is a pleasure to note from time to time and in various ways, the interest and cooperation of individuals and groups in the community in school affairs.

The Annual Prize Speaking Contest is made possible by such cooperation. There is certain expense in carrying this program through each year. We have no funds in the Budget for it. The only source of incomes is from the paid attendance. A stormy evening may interfere seriously with that, but with friends and groups as "Backers"—we can safely go ahead. This provides for the pupils—a vastly worthwhile training. Individuals, the Grange, the Women's Club, the Young Men's Club, have the thanks of pupils, teachers and officers.

A piano for the use of the elementary pupils in the village would be a great asset. While the work in music has progressed finely, the teachers are handicapped by the lack of help which a piano makes possible.

An always welcome visitor, Mr. Swanson, comes in when he can for music—a book talk, a travel talk, a story or Nature talk and which sometimes takes the form of a "nature walk" to study flowers and birds outdoors. But no matter what the "subject" is—the pupils know when Mr. Swanson appears they are in for a period of delight and profit.

To all who cooperate in making better schools and to members of the School Board for their cooperation I extend my personal appreciation.

Respectfully submitted,

J. BYRON TARNEY.
